About

Front-end developer skilled in mobile-responsive design, HTML, CSS (SCSS/Sass), and JavaScript. I have a foundational understanding of React. Seeking a full-time role to grow professionally and tackle complex challenges.

Professional Experience

Front-End Developer

Freelance

April 2024 - Present

- Developed modular, responsive web interfaces using semantic HTML, SCSS, and vanilla JS. Applied performance techniques including font subsetting and image compression to improve Lighthouse scores and user experience.
- Worked closely with UI/UX designers to translate their designs into functional web applications.
- Engaged in continuous learning of emerging technologies, incorporating industry advancements into projects when applicable.

Junior Front-End Developer | Intern

MobileMinds, Inc.

August 2022 - October 2022

- Collaborated with the design team to convert mockups into fully functional web pages, ensuring seamless user interfaces.
- Enhanced user experience by implementing responsive web design techniques and optimizing page load times.

Skills
